

A Sip of MDTea Episode 7.09

# Culture & Ageing

An Introduction

Increasing proportions of non-white caucasian groups are now reaching old age and services need to adapt

Healthcare systems were set up prior to the majority of migration in 1960s

There is little research considering the older person from different cultural backgrounds and the impact of ageing within a predominately white, British culture.

---

Review your local services and strategies regularly in order to match your local communities cultural needs

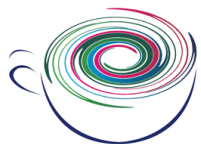

Make use of interpreters e.g. language line or face to face

MDTea podcast provides Education on Ageing for all healthcare professionals working with older adults
